Achieve More Possibilities

HOSE CLAMPS

COMPANY PROFILE

WE CONCENTRATE ON HOSE CLAMPS

EVEREON INDUSTRIES, INC. is a leading manufacturer of worm gear type, worm drive type and customized hose clamps for almost all industries and commercial applications including auto, industrial, plumbing, agriculture, marine, and heavy duty market.

Since 1994, we, EVEREON, have been devoting to provide hose clamps with easy installation, durable using and safety products for our customers to add value in their business relationship by creating more revenue and cost savings.

SINCE 1994

ISO 9001

QUALITY ADVANTAGES

To ensure our customers always receive hose clamps with stable quality, and good business services, we have ISO 9001 certification and an ERP system to control production operation. The QC section inspects hose clamps in strict standard. In addition, our professional technical teams of R&D and engineering sections have been developing our produced machines and molds for further performance and quality.

CORE VALUES – ETHIC, EMOTION, EFFICIENCY

With almost 30 years of experience in hose clamps, we earn a good reputation from our customers because we value the business ethics and sincere relationships with customers and suppliers.

We promote good employee well-being including mental, physical, emotional and economic health in our workplace. Besides, we have been improving our producing facilities to increase the work efficiency and performance of employees.

“ To be an international, leading and reliable supplier of hose clamps ”

is our vision. We, EVEREON, continue developing our further quality products and services to meet your requirements. Welcome to cooperate with us to create more value in your business.

EMBOSSED WORM GEAR HOSE CLAMPS

Embossed Worm Gear Hose Clamps are popular, economy and precision - engineered to use in various general applications.

Sometimes called worm drive hose clamps, non-perforated band hose clamps, or German type hose clamps.

- Precision-engineered and elegant appearance.
- In accordance with the DIN 3017 and RoHS & REACH standard.
- The smooth non-perforated band and flared edge band prevent hoses from cutting and fraying during installation.
- Material and clamping range are stamped on the band.
- W4 stainless steel is superior corrosion resistance.

ADVANCED EMBOSSED WORM GEAR HOSE CLAMPS

Advanced Embossed Worm Gear Hose Clamps are precision-engineered to use in automotive, industrial, and applications of higher tightening demands.

Sometimes called worm drive hose clamps, non-perforated band hose clamps, or German type hose clamps.

- Precision-engineered and elegant appearance.
- Welding in the inside of housing for higher tightening torque.
- In accordance with the DIN 3017 and RoHS & REACH standard.
- The smooth non-perforated band and flared edge band prevent hoses from cutting and fraying during installation.
- Material and clamping range are stamped on the band.
- W4 and W5 stainless steel are superior corrosion resistance.

BUTTERFLY HOSE CLAMPS

Butterfly Hose Clamps are designed for DIY, home and garden applications.

No tools are required.

- In accordance with the DIN 3017 and RoHS & REACH standard.
- The smooth non-perforated band and flared edge band.
- Handle is designed to resist aging and fatiguing under outdoor.
- Installation without tools, easy to drive and release.

Rec. Installation Torque: 2.0 Nm (17 lbf-in)

EAR CLAMPS

- They are fast and easy to installation.
- The no steps or gaps on the inside band makes the inner circumference of the clamps for a 360° leak-free and safe seal.
- The outside interlock, smooth band and burr-free edge prevent hoses from damaging during installation.

Material: AISI 304 stainless steel

ADJUSTABLE EAR CLAMPS

- They are fast and easy to installation.
- The multi interlock positions are for widely diameter range.
- The outside interlock, smooth band and burr-free edge prevent hoses from damaging during installation.

Material: AISI 430 and 304 stainless steel

SIZE	BAND T x W		CLAMPING RANGE (SIZE, DIAMETER)				PART NUMBER

- ◆ Pliers tool for ear clamps.

MICRO HOSE CLAMPS

Micro Hose Clamps are tiny and small to use in small pipes.

- In accordance with the RoHS & REACH standard.
- Design for installing in narrow areas.

Rec. Installation Torque: 1.0 Nm (9 lbf-in)

MATERIAL

MATERIAL TYPE	BAND	HOUSING	SCREW
W2 (430 S.S.)	AISI 430 S.S.	AISI 430 S.S.	Plated Carbon Steel

CLAMPING RANGE (SIZE, DIAMETER)					PART NUMBER	
Band Width	Min. (mm)	Max. (mm)	Min. (inch)	Max. (inch)	W2 (430 S.S.)	
					10520-	
6.5 mm	7	11	9/32	7/16	07011	
	9	14	11/32	9/16	07014	
	10	19	3/8	3/4	07019	

⊕ 5 mm Hex. Head Screw.

BRIDGE HOSE CLAMPS

Bridge hose clamps are special designed for woodwork and dust collected pipes.

- In accordance with the RoHS & REACH standard.
- The bridge structure is designed for crossing the wire of corrugated pipes.
- Butterfly handle and Hex. head screw are available.

Rec. Installation Torque: 3.0 Nm (26 lbf-in)

MATERIAL

MATERIAL TYPE	BAND	HOUSING	SCREW	HANDLE
W2 (430 S.S.)	AISI 430 S.S.	AISI 430 S.S.	Plated Carbon Steel	POM

CLAMPING RANGE (SIZE, DIAMETER)					PART NUMBER	
Band Width	Min. (mm)	Max. (mm)	Min. (inch)	Max. (inch)	Left Hand	Right Hand
					19027-	19027-
9 mm	51	70	2	2-3/4	09070L	09070R
	101	120	4	4-3/4	09120L	09120R

RUBBER LINED CLAMPS

Lined Band Clamps are special design for protecting rubber hoses, and preventing hose from extruding and shearing during installation.

- Under SAE J1508 Standard and RoHS & REACH standard.
- The lined band protects the hoses.
- 1/2" (12.7 mm) Band Width.
- 5/16" (7.9 mm) Hex. Head Screw.

Rec. Installation Torque: 5.0 Nm (44 lbf-in)

MATERIAL

MATERIAL TYPE	BAND	HOUSING	SCREW	
430 S.S. Band	AISI 430 S.S.	AISI 430 S.S.	Plated Carbon Steel	↕
Carbon Screw	AISI 304 S.S.	AISI 304 S.S.	Plated Carbon Steel	↕
All 304 S.S.	AISI 304 S.S.	AISI 304 S.S.	AISI 304 S.S.	↕

BAND CLAMPS

Band Clamps offer 3M or 5M length band with 8 buckles. This clamp is for DIY market, you can make a clamp for your requirements.

- Band length is available in 3 and 5 meter.
- Each set included 1 band and 8 buckles.
- 5/16" (8 mm) Band Width.
- 1/4" (6.4 mm) Hex. Head Screw.

Rec. Installation Torque: 2.0 Nm (17 lbf-in)

MATERIAL

MATERIAL TYPE	BAND	HOUSING/BUCKLES	SCREW	
430 S.S. Band	AISI 430 S.S.	AISI 304 S.S.	Plated Carbon Steel	↕
All 304 S.S.	AISI 304 S.S.	AISI 304 S.S.	AISI 304 S.S.	↕

BALL LOCK CABLE TIES

Ball lock cable ties are suitable for automotive, machine, construction, and outside area.

- Stainless steel material is superior corrosion resistance and durable bundle.
- Easy to install by hand or banding tool.

Material: AISI 304 and 316 stainless steel are available.

SIZE LIST

TT HIGH-PRESSURE HEAVY DUTY CLAMPS

TT High-Pressure Heavy Duty Clamps provide reliable pipe connections. Designed for use in applications of industrial machinery, trucks and equipment with high vibration.

- The smooth non-perforated band prevent hoses from cutting and fraying during installation.
- W4 stainless steel is superior corrosion resistance.

Material: W4 (304 stainless steel)
